LIVESTOCK SLAUGHTER, MEAT, AND LARD PRODUCTION, 1961

Red meat production in 1961 totaled 28.6 billion pounds, up 1 percent from 1960, according to the Crop Reporting Board. Beef production in 1961 was 15.3 billion pounds--up 4 percent from the 1960 production of 14.7 billion pounds. Veal production totaled 1.0 billion pounds--6 percent below the 1960 production of 1.1 billion pounds. Lamb and mutton production totaled 0.8 billion pounds--up 8 percent from the previous year. Pork production totaled 11.4 billion pounds--down 2 percent from the 11.6 billion pounds produced in 1960. Beef accounted for 53 percent of the total red meat production in 1961, while pork made up 40 percent. Veal accounted for about 4 percent and lamb and mutton 3 percent. Lard production totaled 2.5 billion pounds in 1961, compared with 2.6 billion pounds in 1960.

The number of cattle slaughtered in 1961 was 2 percent above 1960. Cattle slaughtered under Federal inspection and farm slaughter were each up 3 percent from a year earlier, but other commercial slaughter, decreased 3 percent. Calf slaughter in 1961 was down 6 percent. Slaughter of calves under Federal inspection was down 5 percent, and other commercial slaughter was down 9 percent, but farm slaughter was approximately the same. The total number of sheep and lambs slaughtered in 1961 increased 8 percent from a year earlier. The number of sheep and lambs slaughtered under Federal inspection was up 7 percent, other commercial slaughter was up 16 percent, and farm slaughter increased 1 percent from a year earlier. Total number of hogs slaughtered in 1961 was 3 percent less than in 1960. Slaughter in Federally inspected plants decreased 1 percent, other commercial slaughter decreased 9 percent and farm slaughter decreased 8 percent from the previous year.

Slaughter cattle averaged 12 pounds heavier than a year earlier, calves averaged 2 pounds heavier, and hogs averaged 2 pounds heavier, while sheep and lambs were unchanged from 1960.

Slaughter in Federally inspected plants and other commercial plants is included in the monthly estimates. Farm slaughter estimates are on a quarterly basis only. The farm slaughter estimates have been revised for 1960.

This report is made possible through the cooperative efforts of the Agricultural Research Service, the Agricultural Marketing Service, and the Statistical Reporting Service.
